## Miscellaneous Items.

In the Alabama Legislature Mr. Harrington, of Mobile, has offered a resolution in relation to newspapers which provides that for publishing slanderous articles the editors and proprietors shall be fined no less than one thousand dollars and imprisoned not less than six months, and the press and materials can be sold as soon as judgment is entered to pay the fine. The act applies to copied matter as well as original matter, and the Judge is to decide what is "slanderous."

Immense numbers of sand flies suddenly appeared in Chicago on Monday evening of last week. Many saloons were compelled to close. Wherever a light was placed, the flies gathered around it in millions. The street lamps were besieged, and in many instances the streets were as dark as if no gas were employed. The sidewalks were covered. About half-past ten o'clock they covered everything. Then they commenced to disappear, and at two o'clock next morning scarcely one was to be

Our latest English papers chronicle the close, in the South of England, of the long continued drought. Heavy showers fell on the 11th and 12th. Barley, oats, turnips, and nearly all kinds of winter fodder had suffered for want of rain. Wheat showed less damage than might have been anticipated. Wheat and hay in the south of France had also suffered considerably from the drought-not enough, however, to prevent the general aspect of the harvest from being

It was ascertained a few days ago by an examination of the contracts at the Interior Department that by some means or other the contract for stationery for that department was given to the highest instead of the lowest bidder. A bill was introduced and passed the Senate compelling the annulling of the contract, and an attempt was made to bring the bill to the attention of the House at once, but objection being made, no action was taken.

## Horses and Mules. [From the Farmer's Gazette.]

CLIFTON, FAIRFAX, VA., June. The success of the farmers depends, more or less, on their ability to reduce the expenses of their operations to the lowest possible figure. -Foremost in their expenses stand their teams. Whether to use horses or mules is a question which has been subject to discussion over and which has been subject to discussion over and glass. Call and see, at 65, King st. over again, and still opinions are divided. Alglass. Call and see, at 65, King st. E. J. MILLER. low me to communicate to you my experience in this matter. For many years, except the TAMPS, LAMP GOODS & OIL. last two, where I have used horses exclusively, because I could not procure good mules at a horses together. Before the war I worked as many as thirty-two mules and eight horses at ime in Georgia. I found invariably that in the heat of the summer my horses (very good ones) would give out, except one, whereas my mules stood the work without any distress. my mules stood the work without any distress. My horses were fed with six quarts of corn and fourteen pounds of hay per day, while my mules did not eat more than five quarts of corn and ten pounds of hay. Now let us make a calculation for the year. Take four horses at six quarts

of corn each per day-Makes per annum 365 bushels at \$1......\$365 CO Each horse 14 lbs. hay per day at 1 cent per lb., makes 20,440 lb., per annum... 204 40

Take four mules, at 5 quarts of corn each per day, makes per annum 288 bushels at \$1.....\$288 Each mule 10 pounds of hay per day makes 14,600 lbs. at one cont............ 146-434 00

for twenty years, whereas horses seldom serve more than ten years. Besides horses are more subject to sickness than mules. Still there is another consideration in favor of the mules. They will stand hardship and abuse better than horses. Even with the best care, the farmer at periods is compelled to leave his teams in the hands of the negroes, without being able to watch and control them. Good and spirited herses worked by negroes will mostly be ruined by them; a mule will stand their abuse.

Mules will perform farming work as well as horses, except breaking up heavy sod land and pulling a wagon in very deep roads. (I am speaking of middle sized mules, as heavy mules would do as well as the best horses on any place where they are put.) In the first case, hitch three mules to the plough, even if the ploughing lasts a little longer; and in the second case, do not take your teams out if the roads are in such condition. The wear and tear on teams, harness and wagon amount to more than whatever time you may save. On a well regulated farm there ought never to be any absolute necessity for taking teams out on the road when they are in an impassable condition A good farmer always is ahead with his work as far as it depends on him, and takes care to prevent any hitch in work. I know the contrary is generally the case, but every farmer ought to make it his special object to reach this point. Once gained, it is easily kept up. Yours truly, &c.,

YOUNG MEN,

Especially, who have become the victims of solitary vice, that dreadful and destructive habit which annually sweeps to an ultimely grave thousands of Young Men of the most excellent talents and brilliant intellect, who might otherwise have entranced listening Sena-tors with the thunders of eloquence, or waked to estacy the living lyre, may call with full

He who places himself under the care of Dr J. may religiously confide in his honor as a gentleman, and confidently rely upon his skill as a physician.

ORGANIC WEAKNESS Immediately cured and full vigor restored. This distressing affection, which renders life miserable and marriage impossible, is the penalty paid by the victims of impropriety.—Young persons are too apt to commit excesses from not being aware of the dreadful consequences that may ensue. Now, who that understands the subject will pretend to deny that the power of procreation is lost sooner by those falling into improper habits than by the prudent? Besides being deprived of the pleasure of healthy offspring, the most serious and destructive symptoms of both body and mind arise. The "ystem becomes deranged, the Physical and Mental Functions Weakened, Loss of Procreative Power, Nervous Irritability, Dyspepsia, Palpitation of the Heart, Indigestion, Constitutional Debility, and Wasting of the Frame, Consumption, Decay and Death. DR. JOHNSON,

Member of the Royal College of Surgeons London, Graduate of one of the most eminen; Colleges in the United States, and the greater part of whose life has been spent in the heapitals of London, Paris, Philadelphia, and else where, has effected some of the most astonish ing cures that were ever known, many troubled with ringing in the head and ears when asleep, great nervousness, being alarmed at sudden sounds, bashfulness, with frequent blushing, attended sometimes with derangement of mind, were cured immediately.

TAKE PARTICULAR NOTICE. Dr. J. addresses all those who have injured themselves by improper indulgence and solitary habits, which ruin both body and mind,

unfitting them for either business, study, society or marriage. These are some of the sad and melancholy effects produced by early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head, Dimness of Sight, Loss of Muscular Pow-er, Palpitation of the Heart, Dyspepsia, Neryous Irritability, Derangement of the Digestive Functions, General Debility, Symptoms of

Consumption, &c. MENTALLY. - The fearful effects on the mind are much to be dreaded. Loss of Memory, Confusion of Ideas, Depression of Spirits, Evil Forebodings, Averson to Society, Self Distrust, Love of Solitude, Timidity, &c., are some of the evils produced: Thousands of persons of all ages can now judge what is the cause of their declining health,

losing their vigor, becoming weak, pale, ner-vous and emacated, having a singular appear-ance about the eyes, Cough, and Symptoms of Consumption. YOUNG MEN, Who have injured themselves by a certain practice, indulged in, a habit frequently learned from evil companions, or at

school, the effects of which are nightly feit, even when asleep, and, if not cured, renders marriage impossible, and destroys both mind and body, should apply immediately.

What a pity that a young man, the hope of his country, the pride of his parents, should be snatched from all prespects and enjoyments of life by the consequence of deviating from the path of nature, and indulging in a certain secret habit. Such persons must, before contemplating
